

## - Press Release -

Krailing, September 2021

### **Senior Sales Manager Thorne Lietz joins InnoLas Solutions**

As of September, Thorne Lietz joins the Electronics Team at InnoLas Solutions GmbH as Senior Sales Manager. For 25 years, Lietz held various positions at LPKF Laser & Electronics AG. He started in 1996 as a service engineer, before taking on various tasks in the sales department ten years later, ultimately becoming Senior Sales Manager and Key Account Manager Automotive in the area of machine sales for electronics manufacturing.

The experienced manager explains his move to InnoLas Solutions as follows: "InnoLas Solutions' products are excellently matched to current and future customer requirements. The team is dynamic and flexible. I am therefore convinced that I will be able to provide customers with extremely innovative and reliable support, especially when it comes to requests for special solutions or inquiries about fully automated manufacturing. InnoLas Solutions has positioned itself excellently in this area and is already operating very successfully".

For CSO Lars Ederleh, the Senior Sales Manager is a stroke of luck: "We are delighted to gain Thorne Lietz, an experienced sales colleague from the field of electronics manufacturing. He is known among his customers for his competence and service orientation. Together, we will successfully realize InnoLas Solutions' growth projections in the field of electronics manufacturing equipment, I am sure".
